Experience

Finarkein Analytics

Pune

PRODUCT MANAGER

May 2025 – Jan 2026

- Cut Time to First API Call by 30% and improved CSAT by 15 points by launching a Mintlify-based API documentation portal giving customers faster onboarding and reducing support tickets.
- Automated billing for the finance team by deploying a metering solution reducing monthly invoice preparation time by 40% and eliminating manual reconciliation errors.

Plum Insurance

Bengaluru

PRODUCT MANAGER II

Jul 2023 – Nov 2024

- Led integrations with insurers and HRIS to streamline endorsements workflows increasing operational efficiency by 29% and reducing errors by 40%.
- Launched an endorsement portal that empowered customers to initiate and track their endorsement requests ensuring timely updates on request status and reducing support queries by 20%.
- Developed an interface for HRs to initiate Bulk Delete requests resulting in 15% reduction in support queries.
- Spearheaded the development of a Proof of Concept (POC) that delivered real-time visibility into customer debit and credit transaction ledgers, enhancing financial accuracy for over 50 HR staff and streamlining reporting processes.

Juno Finance

Bengaluru

SENIOR PRODUCT MANAGER

Feb 2021 – Jul 2023

- Acquisition : Integrated Cashapp ACH and WIRE as an option for USA users to buy crypto in partnership with Transak which helped in reducing the Funded CAC from \$120 to \$15.
- Onboarding : Increased Total Applications submitted from 50% to 62% as part of No-KYC flow by identifying good users based on PII data. Increased KYC Submitted : Account Creation from 82% to 94% by automating manual review process.
- Payments : Automated Faster ACH thus reducing time of settlement from 5 days to 3/1 day by analyzing transaction history. Reduction in money lost by the platform mainly due to ACH funding by up to 90%.
- Cash Management & Reconciliation : Led platform integration with core Banking-as-a-Service (BaaS) provider (SynapseFI/Evolve Bank) covering the full consumer DDA/Checking account lifecycle.

ImpactGuru

Mumbai

ASSOCIATE PRODUCT MANAGER

Dec 2019 – Jan 2021

- Payments : Improved AOV by 20% by building a configurable amount prompt on the checkout. Introduced tip collection on the checkout resulting in 65% of all donors tipping a certain amount and increased tip contribution to 6% of donation amount
- Donor Exp : Reduced friction for repeat donors by storing donor info details at Step1 via cookie and preferred payment method at Step 2 via database. Redirecting the users on failure to the Same Page Checkout Form helped in conversion of 15% of failed payments to success.
